

Mutual Understanding Content Policy - Version 2 (Politically Survivable)

Purpose

Ensure fair, transparent, and consistent handling of sensitive content while maintaining trust and compliance.

Hybrid Review Framework

AI pre-screening flags content under safety guidelines. A rotating human panel reviews flags. Platform retains final legal authority.

Contextual Presentation

Sensitive content is placed behind a context notice explaining why it was flagged and which rules apply. Deletion occurs when legally required.

Accountability

Policy Compliance Officer, annual independent audit, and quarterly transparency reports.

User Rights

Appeals reviewed by a separate panel. Users can download a record of the decision and reasoning.

Safety Nets

Immediate takedown for direct threats, illegal content, or verified data leaks. Legal compliance overrides contextual presentation.

Public Engagement

Public Q&A, academic partnerships, and digital literacy initiatives.
